(DESPATCHES TO THE OREGONIAN.)

EASTERN DATES TO MARCH 19

EASTERN STATES.

Terrible Boiler Explosion.

CINCINNATI March 18.—A terrible boiler explosion occurred this afternoon in the soap factory of Woods & Garrahan. Two boilers exploded with fearful violence. Of eight employes in the building, two—Barney Asthoffer engineer and James Uncrich—were instantly killed and George Herringer and Lizzie Hoffman slightly injured. The most terrible result of this explosion was one of the most singular in the records of casualties. On Baymiller street over half a mile distant by map measurement in a two line three little girls in a front yard were jumping a rope. A section of the boiler was hurled all that distance, over the tops of houses and fell upon their heads. Two of them were killed instantly, and the third mortally wounded. This piece of boiler is a per foot cylinder 11 feet 8 inches long 24 inches in diameter and weighs a ton. Persons who saw it say that it looked like a stove pipe sailing in the air. The roofs of buildings were considerably damaged. The cause of the explosion is not known.

Internationals in New York.

NEW YORK, March 18.—The Internationalists to night celebrated the uprising of the Commune. Victoria Woodhull delivered an address on the principles of Communism, which she declared were rapidly spreading in America.

The Political Campaign in Connecticut.

NEW HAVEN, March 18.—Senator Wilson delivered the opening speech of the campaign here to night to an immense and enthusiastic audience.

An Absconding Postmaster.

MEMPHIS March 18.—Dr Goshorn Postmaster of Dinsburgs, Tennessee, has absconded with four thousand dollars of Government funds.

WASHINGTON CITY

An Oil Excitement.

WASHINGTON, March 18.—The House Committee on Commerce, to whom was referred the complaints against the Southern Improvement Company, will hear a company of oil producers on the subject, who are expected from an oil district in Western Pennsylvania. It is alleged that the Improvement Company have made a connection with the New York Central New York & Erie and Pennsylvania Railroad companies for a term of five years the object of which is to control the transportation of oil at advanced rates. Under this arrangement they already advanced $1 50 per barrel, which will amount to an increase of cost for transportation alone of over $8 000 000 per annum, two thirds of which is to go to the Improvement Company in the shape of drawbacks and for which they render no equivalent. The people of the oil regions are intensely excited, and are holding meetings and organizing for self protection. They have formed a secret political organization which they claim will control over twenty thousand votes and be strong enough to change the political complexion of the State, if necessary to protect them from monopolists.

BY ATLANTIC CABLE.

London Dispatches.

LONDON, March 18.—The London Rowing Club selected a crew for the match with the Atlantic Club of New York. The following are the men: Stout (stroke), Ryan, Aclstoke and Strong.

In the House of Commons to night Mr. Gladstone in answering Mr. Disraeli's inquiries, stated that the reply of the American Government to Lord Granville's note concerning the *Alabama* claims was received by her Majesty's Government on the 14th inst. He was gratified to be able to state that it was couched in courteous and friendly terms. [Cheers.] In the opinion of the Government an answer is required, which the Government of the United States appeared to invite. This answer will be delivered to the American Minister in London before Thursday of the present week. It would be inconsistent with public business to lay the correspondence before Parliament at present, particularly as the Congress of the United States has declined to ask of the President the tenor of our communication. While it shows that we are anxious to carry the treaty into execution, it will, I trust not misconstrue the feeling of statesmanship which the nature of the case and which the honor of this country demands.

The statement of the Premier was received at the close with loud cheers. Granville in the House of Lords made a reply in substance the same to the inquiry of Earl Malmesbury concerning the correspondence adding that the papers would be produced as soon as possible. He assured his lordship that he was aware of the public anxiety on the subject and the grave responsibility attaching to the Government in dealing with it.

French Affairs.

PARIS, March 18.—It is rumored that Bourbaki has challenged Daraguay d Hilliers.

VERSAILLES March 18.—The Republicans yet left in the Assembly will not oppose the war estimates as agreed on by Thiers and the Budget Committee. A deputy figured in the Assembly yesterday that France needed an army of 1 000, 000 to keep at peace with neighboring Powers.

Spanish Affairs.

MADRID, March 8.—The *Correspondencia* says that a deputation composed of men of all parties recently waited upon Don Esparduro and requested him to accept a nomination for the Cortes. The distinguished statesman declined the honor, declaring that he had long since withdrawn from political strife the participation in which was incompatible with his advanced age. He counseled the Liberal men of all shades of opinion to unite and end the dissensions which afflicted Spain and consolidate the institutions of the country on a firm and enduring basis.

One hundred delegates of the old Catholic party held a meeting here last week and resolved to call a general Congress to meet at Cologne in September. A petition against the Jesuits was framed to be presented to the Reichsrath.

From Rome

ROME, March 18.—Von Arnim, German Ambassador to the Papal Court, will soon present to the Pope his letter of recall.

CALIFORNIA

From San Francisco

SAN FRANCISCO, March 19.—Following is a resolution passed by the Board of Supervisors last night:

Resolved, That the action and resolutions of the citizens of San Francisco in mass meeting assembled on Saturday evening last in relation to the ceding of Goat Island to the Central Pacific Railroad is approved by this Board and we recognize in the appointment of a committee of three Republicans and three Democrats, all of them excellent citizens an ignoring of political issues and an evidence of a determination to work solely for the public good and we recommend said committee to our legislative delegates as practical and wise co workers with them on the special mission entrusted to their charge; and we also recommend that said committee be requested to confer with the Central Pacific Railroad Company and if possible come to an understanding with said company as to the terminus grounds in a liberal spirit of concession in the interests of commerce and inland communication. Adopted.

Thirteen cows and calf sheep full bloods purchased here for $1 400 were shipped for Oregon on the steamer *Oriflamme* this morning.

The Purdy colt which has pulled away over a mile start in 2 4 was sold yesterday for $4 000 to James Holmes of Fresno.

Three thousand ladies and gentlemen assembled at the Academy of Music at Philadelphia yesterday sent a dispatch to Mayor Alvord with expressions of friendship and good will for residents of the Golden City and Pacific coast desiring that we should be fully represented at the Centennial Celebration at Philadelphia in 1876. Mayor Alvord replied in a suitable manner promising a full representation as becomes California's love of country and reverence for our institutions.

Probating the will of the late Harry H Byrne is postponed for one week by request to enable the legal heirs of the deceased to contest it. This is understood to be done in the interest of Matilda Herron to whom Byrne was once married. There are no blood relatives of deceased living so far as known.

The Oroman Mining Company levied an assessment of $4 a share yesterday.

LAST NIGHT'S DISPATCHES.

(SPECIAL DESPATCHES TO THE OREGONIAN.)

EASTERN STATES.

Murder and Attempted Suicide.

ST LOUIS March 19.—On Sunday last Jos Kelsey living near Chaplain Mo shot and killed his wife and shot himself dangerously. His wife had been compelled to leave him on account of drunkenness and cruel treatment and her refusal to return to him was the cause.

Miscellaneous Eastern News.

NEW YORK, March 19.—Another delegation from the Committee of Seventy have gone to Albany to effect the passage of the new charter. Many prominent Democrats think it improbable that the Sweeny's charter will now pass.

CINCINNATI, March 19.—At Lockland, Ohio last Sunday a negro named Banhyde beat his wife's brains out with an axe in a fit of jealousy. He accused his wife of being criminally intimate with a colored preacher and of having brought disgrace upon his family.

Destructive Fires.

LOWELL Ind March 19.—The entire business portion of this town was burned last night. Loss heavy. Insurance light. Both hotels and the printing office were destroyed and the jail and other houses were damaged. Fifteen houses were burned besides a number of stables and out houses. There was an insurance on four houses. It is impossible to estimate the loss at present, but it will be about $150 000.

IOWA CITY, March 19.—The Clinton House principal hotel here was burned this morning with nearly all its contents. The occupants escaped with difficulty. The Ole Bull concert troupe were in the house and Ole Bull himself escaped attired only in night clothes and with a fiddle. Loss on hotel and furniture $25 000 in surance $15 000.

New York News.

NEW YORK, March 19.—Gen D L. Stanton, Collector for the Fifth District of Maryland has been arrested and deposed from his position charged with being a defaulter in the sum of from $20 000 to $ 0 000.

Wm T Reed accidentally shot his wife yesterday, killing her instantly. He became a raving maniac when he discovered what he had done.

A London dispatch states that the principal event at the Lincoln races which was inaugurated yesterday, was the Lincolnshire handicap which was won by Chaplin a bay horse Gay Dar well beating the field of 28 starters.

The morning papers estimate the number of processionists in line yesterday in the celebration of St Patrick's Day at from 25 000 to 50 000. The *Times* says it was one of the largest of the kind that has yet been seen.

It was currently reported yesterday among oil dealers of this city that Presidents of railroads connected with the Southern Improvement Company were lately considering the propriety of repudiating those contracts with that Company.

Indicted officials of Jersey City yesterday would move to have indictments declared invalid when their cases came on in Court on the ground that the jury is illegal. This question is pending.

WASHINGTON CITY.

The Spanish Question.

NEW YORK March 19.—The *Tribune* Washington correspondent says on unquestionable authority I am able to inform you that an important change has come over the spirit of the administration on the subject of the question with Spain, growing out of the Cuban war for independence. The immediate cause of this change is not learned but in well informed circles it is supposed to be the receipt of some important dispatches from Madrid. Whatever the immediate causes of this fact can be I assure you that relations between this government and that of Spain are at this moment of a most critical nature, such, in fact, as to warrant the suspicion that an open rupture may supervene any day. Gen Sickles will not return to Madrid, nor will anyone replace him just now. The mistake into which Secretary Fish fell in regard to the personality of the newly appointed Spanish Minister to this Government, has served to embitter the spirit between the two cabinets.

Congressional.

WASHINGTON, March 18.—In the House Rainey got the unanimous consent and had passed a resolution calling for information relative to J E Howard, a citizen of Philadelphia and a citizen of the United States who has been unjustly arrested, condemned and transported by the Spanish authorities in Cuba to a penal settlement in Africa.

A bill relative to the capture of the naval iron clad *Albermarle*, passed.

Senator Ferry of Michigan presented a remonstrance signed by 1 400 citizens of Michigan against the Chicago Relief Bill.

A bill for the relief of the officers and crew of the *Kearsarge* passed. It directs the Secretary of the Treasury to pay them $190 000 in prize money.

BY ATLANTIC CABLE.

London Dispatches.

LONDON March 19.—The press this morning in commenting on the statement in the House of Commons last night by Gladstone relating to the reply of the American Government to Granville's note generally express the opinion that the communication of the premier will create disappointment and apprehension throughout the country. The Government is urged to bring the present difficulty with America, arising out of claims for indirect damages to an amicable and honorable solution.

CALIFORNIA

From San Francisco

SAN FRANCISCO March 19.—The will of Capt Abner Barker was filed for probate to day. The estate is valued at about half a million dollars with the exception of $25 000 given to the Protestant Orphan Asylum. The estate is divided up among the relatives and personal friends of deceased.

Mrs Stratman was knocked down by a grocery wagon as she was stepping off a car with a child in her arms last night on Fourth street, and so seriously injured that fears of a fatal result are felt.

There are 36 common seamen posted as deserters from the U S steamer *Sarquac* alone. Many of these men enlisted at the East apparently to enable them to get here free and then desert.

This has been one of the roughest days in years the wind blowing a gale from the west dust flying in all directions. The gale still continues.

The steamship *Colorado* from Panama is expected to morrow.

It is the opinion of stock dealers here that the bill regulating mining companies giving half the stockholders power to call meetings and three quarters to turn out Trustees which passed the Senate to day will have immediate effect in restoring confidence in stock investments with the general public. They think that under the new law combinations to freeze out stockholders will be impossible. The shorts are making a concerted effort to break stocks again this week with partial success to day.

SAN FRANCISCO March 19.—There were 35 000 shares of stock sold at the Board to day including 2 850 of Eureka 2 [illegible] of Potosi 1 150 of Chollar 1 450 of Yellow Jacket 2 [illegible] of Belcher 1 [illegible] of Gould & Curry was but little dealt in only 100 shares being sold. Virtue was in small demand at reduced prices and confidence restored.

The girl found stupefied with drugs on Bush street last Saturday night and taken to the hospital is not yet recognized nor has she recovered her consciousness sufficiently to tell who she is or where she belongs.

The German Independent Republicans are in convention to night to confer upon the necessary steps to make their influence felt in purifying the Republican party in the coming election. The attendance is small but they claim to represent a large number of German voters.

J J Marks a merchant tailor sent in a card declaring himself in favor of largely reducing the port charges of San Francisco.

INTERIOR CALIFORNIA DISPATCHES.

SAN JOSE March 19.—Mr Tramo and boy Garcia who were accidently shot on Sunday last are improving rapidly.

BATTLE MOUNTAIN March 1.—Amos Rogers died this morning of small pox.

THE REPUBLICAN PARTY.

Following is a report of the great speech delivered at Great Falls (N H) by Senator Wilson just before the recent election in that State. It is a splendid vindication of the Republican party.

WHAT THE REPUBLICAN PARTY HAS DONE FOR LABORING MEN.

Let us see what the Republican party has done for the laboring men of this country during the last twelve years. It struck the fetters from four and a half millions of laboring men and women converted them from things into men and women, in making them free, it struck down that proud, haughty and domineering aristocracy of the South that held the doctrine—and proclaimed it to the—that capital should own labor; that the men who toiled for wages were the mudsills of society; that the slavery of working men produced a class of gentlemen who were the substitutes for an order of nobility. Those were the doctrines proclaimed in our ears for forty years by the Calhouns, the McDuffies the Hammonds the Rhetts, the Ruffins, the Fitzhughs the Herschell V Johnsons and men of that class, who laid down the doctrine everywhere boldly that "slavery was the normal condition of laboring men, black and white. In emancipating these four and a half millions of black men and women we struck down the power of that class of men in this country forever. They made labor dishonorable in 800 000 square miles of the United States in the sunny South as they were wont to call it. Laboring men from abroad would not go there to toil. Northern laboring men would not go there to live; they would not stand by the side of the fettered bondman whose labor was dishonored. But by the steady, persistent adherence to principle of the men trained in the faith of opposition to slavery who now stand in the ranks of the Republican party all this has been changed so that today the laboring men of New England can stand up in the Carolinas, by the graves of Calhoun of McDuffie of Pickens of the leaders of the slave power who proclaimed free society a failure—that free men and women were classed in four subdivisions, the hireling the beggar the thief and the prostitute—and "look up and be proud in the midst of their toil. We have made labor honorable even in the rice swamps of the Carolinas and Georgia. We have taken the brand of dishonor from the brow of labor throughout the country and in doing that we have done more for labor for the honor and dignity of laboring men than was ever achieved by all the parties that governed this country from the time the pilgrims put their feet upon Plymouth Rock up to the year 1860 [Applause.] And that is not all. We have opened that eight hundred thousand square miles to free laboring men, they can go there now, they are going there now. The German the Englishman the Irishman the New England Yankee the men of the Middle States and of the Northwest can go there now and engage in the mechanic arts, in cultivating the soil and in all the pursuits of life and no longer feel the degradation that rested upon laboring men when labor was extorted from men by the lash. Let the man who toils for wages whether in the mill, on the farm, in the machine shop realize what has been done these last dozen years to lift from toil the badge of dishonor and to open the great South to the free laboring men of the world.

SMALL FARMS VERSUS GREAT PLANTATIONS.

The Republican party maintains the policy of the small farms against the great plantations. The Democratic party joined the South on that issue as it did in everything, and on every issue. We passed the homestead bill, and James Buchanan vetoed it, and the Democratic party supported him in that veto. The object of that bill was to save the vast public domain to landless men, that they might have small farms, rather than that a few men might have great plantations. We were defeated but the first year the Republican party came into power in the midst of the struggle for national existence we passed the homestead bill and saved the public lands to the free laboring men of this country forever and forever.

CONDITION OF THE LABORING MEN.

In 1833 in the great debate in the Senate on the tariff, it was said by those who advocated protective duties that they had raised the price of labor in the United States so that it averaged fifty cents a day. How is it now? This winter is the most prosperous winter the United States has seen in its history. Everybody is at work. There is very little suffering anywhere. Why this change? Why this improvement? It is because we have smitten down the slave system, broken down the slave power, lifted up and dignified and honored labor, tried to protect and diversify our own industries? To day the laboring men and women of our country are earning from three to four times as much in a day as they could earn forty years ago and a day's work is shorter now than it was then. After I had learned a trade in the place where I lived, I worked fourteen and fifteen hours a day month after month to earn about forty dollars a month. There are hundreds of men there now who in ten hours can earn a hundred dollars more easily than I could earn forty in fifteen hours. I am grateful to God that this is so. I do not care anything about a few men or corporations piling up a great amount of money. I believe God meant this world to grow good men and women and not to pile up money. That is my belief and I want to see the men and women who bear the burdens and do the work have a full share of all they earn and that an honest day's work shall always have a fair day's pay. [Loud applause.]

WHY THE ADMINISTRATION IS ATTACKED.

Appeals are made especially to laboring men that we have a very corrupt Administration at Washington. One would suppose, to hear our Democratic friends talk that we never had any corruption before that they had always been pure, because they never punish a thief. [Applause and laughter.] I propose right here to lay down this proposition. That the reason why this Administration is so assailed is not that it has been more corrupt or as corrupt as its predecessors but that it is doing much to expose thieving, and to punish men who steal. The Democratic party I mean, the modern Democratic party came into power in 1829 under Gen Jackson. One man Samuel Swartwout in Gen Jackson's day when the Government raised only a few millions of dollars a year stole $1 000 000 in the New York Custom house nearly as much money as has been stolen under this Administration in three years in collecting and paying out yearly $ 100 000 000. The percentage of loss under the Administration has been less than under any Administration since Gen Jackson was inaugurated President out of the United States. There is not a shadow of loss of it. I assert here and now that there has been a less percentage of loss under Gen Grant's Administration than any other Administration since the days of John Quincy Adams. John Tyler a son of President Tyler in a letter recently published states that there were in Van Buren's Administration ninety eight receivers of the public money ninety six of whom were defaulters. Ninety six out of ninety eight. [Laughter.] Is there any man here to night who knows that any one of these men was ever sent to the penitentiary. I believe a Republican thief is a worse man than a Democratic thief. [Laughter.] He has not had so many bad examples. [Laughter and applause.] A Republican thief is the wickedest and meanest thief in all the land. He joins a great party that was brought into being to give freedom to the slave, maintain the unity of the country and preserve the life of the nation. In the ranks of that party is a large mass of the intelligence of the country, of the praying men and women of the country. A man who joins that political organization betrays his trust and steals the money of the Government is a base creature and the penitentiary is the only place where he should go.

THE DIFFERENCE BETWEEN REPUBLICAN AND DEMOCRATIC THIEVES.

The difference between Republicans and Democrats on this question is this: the Republicans try to discover and punish their thieves. The Democrats never punish theirs. You cannot tell me to night of a man who stole from the National Government under a Democratic Administration who was sent to the penitentiary. Under this Administration several thieves have been sent there. Most of their stealing was under the late Administration, for there has been little stealing under this. Under Andrew Johnson's Administration mean men got office. He went back on his party, on his record, and upright Democrats paid little attention to him, honest Republicans kept away from the White House, and mean men of both parties sought the benefits of his patronage. Since Gen Spinner entered upon his office as Treasurer of the United States, fifty five thousand millions of dollars have passed through his office counted by from three to four hundred men and women. We have lost between fifty and sixty thousand dollars in these eleven years, while fifty-five thousand millions have gone through the office. We punished one man, fined him, and he is now trying to get back five thousand dollars, for he says we made him pay five thousand dollars more than he stole. [Laughter.] We have sent to prison three trusted clerks, men of capacity and ability everybody trusted and respected them. That is the way we have served our thieves.

THE "BOSS THIEF" OF THE WORLD.

About the same time the discovery was made of the boldest and most gigantic robbery of the people ever perpetrated in ancient or modern times. Bill Tweed—"Boss Tweed"—a man who a few years ago went through bankruptcy, and who is said to have boasted, within a year, that he had eighteen millions of dollars, and with him the tribe of Tammany Hall have been discovered and exposed. Some of them have gone to Europe, some of them are enjoying the pleasures of the healthful breezes and snowdrifts of Canada, some of them are in one part of the country and some in another. While we were trying Major Hodge, and sending him to the Penitentiary at Albany for ten years, with the approval of the entire Republican party of the country, Bill Tweed, the greatest thief of all the history of the human family, the boss thief of the world [loud laughter and applause] was sent to Albany, not to the Penitentiary, but to the State-house as a State Senator by twelve thousand Democratic majority. [Applause.] These two cases illustrate exactly the difference between the two parties; the one denouncing thieves and arresting and punishing them when it can, the other never punishing any of them. I am told by leading Democrats, some of them members of the Committee of Seventy, men who have done all they could to expose and break those men down, that they do not believe one of these thieves will ever go to the Penitentiary. They stole the Erie railroad, they stole the State of New York from Gen

The Daily Oregonian.

WEDNESDAY MORNING MARCH 20, 1872

The Convention To Day

Remarkably good feeling and harmonious spirit are manifest among the delegations from the several counties to the Republican State Convention which assembles to day Struggles in conventions have often been acrimonious, but if we may judge of the action that will take place in Convention to day from the spirit which is evinced on the outside there will on this occasion be nothing of the kind All Republicans who arrive seem animated by a purpose to take their best endeavor to recover the State and the common wish is that all personal preferences may be sunk in a general effort to bring about that result.

That the Republican party will maintain its ascendency in the nation is well understood The opposition is irregular and factional, it proposes nothing which it sees a reasonable hope of accomplishing, and cannot decide on any basis for future action The results of Republican administration are highly satisfactory to the country and the people at large have no thought whatever of doing such an absurd and hazardous thing as entrusting national affairs to the Democratic party

Our State affairs have been for four years virtually in the hands of that party and for two years actually and wholly so There is a wide-spread conviction that the results of Democratic legislation in this State have not been conducive to its interests, and that jobs and special legislation have been far too common There is reasonable apprehension that more of the same character will follow if the same party secures a majority of the next Assembly The people, therefore, should be afraid to elect another Assembly like the last Hence on local considerations Republicans should make special efforts and on national issues they have every motive that can prompt them to most earnest action.

The Convention that assembles to-day fairly opens the campaign It is the Presidential year, and therefore possesses more interest than others. The State is close, but we believe that with proper effort to get out the whole Republican vote we can elect the Congressman and create a majority of the Legislature in June Then the State will naturally go Republican in the Presidential election in November At the East the campaign has opened most auspiciously Oregon should respond to New Hampshire We trust the Convention will lay the groundwork for victory, to-day

The "Labor Reform" Candidate

It is usually the aim of political parties to elect candidates who embody the principles they are nominated to represent, and who are in sympathy with their purposes But the so-called "Workingmen's" party, according to the statements of Eastern journals, have selected a candidate who has nothing what ever in common with them A very large proportion of this organization is composed of foreign born citizens Their present candidate for President was an original Know Nothing They profess to be opposed to land monopoly, yet Judge Davis is one of the largest land holders in the United States He holds an immense quantity of land in Illinois and has grown rich by his land speculations If there is a land monopolist he is one

The workingman know how to ring the changes on "aristocracy" and "aristocrats," yet their candidate is an aristocrat of the first water, and, judging from his size and pompous bearing, what might very properly be called a 'bloated" aristocrat

Judge Davis never worked a day in his life He has and can have nothing in common with the man who earns his bread by the sweat of his brow Rich from his youth up, and nursed in the lap of luxury, what does he know, what can he know of the wants and feelings and interests of the children of toil? He never knew what it was to be poor, what it was to toil and moil, or what it was to bear the thousand ills that beset those who labor to keep the wolf from their doors He accepts the nomination tendered him why? Because he approves the platform? No, but because the Presidency is neither to be refused or sought. Upon *this* basis he could become the nominee of any party Acceptance on this understanding, implies no approval of the objects or purposes of those tendering such a nomination He accepts, not because he approves, but because it is the duty of public men not to refuse such a place, when offered

Here, then, we have foreign born citizens nominating for President an original Know Nothing

Anti Land-Monopolists nominating a Land Monopolist

Anti-Aristocrats nominating an Aristocrat, and Workingmen nominating a rich man who never worked and who has not a single feeling in common with them

The Pittsburg *Gazette* thinks that while inconsistency might perhaps go farther, it could hardly fare worse

The Oregon Statesman

This paper has been purchased by Capt C. P Crandall, who will take charge of it at once Capt. Crandall will therefore no longer be a citizen of Portland

In parting with one who has been our constant associate in daily editorial labor for more than six years we cannot withhold a tribute to his merits as a journalist and his qualities as a friend Capt Crandall possesses capacity as a journalist in a remarkable degree. His pen is always ready his judgment is sound and discerning, and he is equally at home in writing leading articles, reporting local news, or performing any other of the multifarious duties that belong to general editorial work In an eminent degree he possesses what may be called newspaper sense, and among newspaper men he has long been recognized as one of the most accomplished journalists in Oregon

Under his management the *Statesman* will certainly take a new position among the journals of the State He has ability to make it a useful and influential paper and we trust that the efforts he may put forth will be appreciated and rewarded While therefore we part with regret with one who has so long been our associate we have satisfaction in knowing that his journalistic services do not cease but are only transferred to another field

The penetration of the *Bulletin* discovers sly digs at the Republican party in our commercial reports Our neighbor's organs of vision must be wonderfully keen to see what nobody else can Sam Weller's double magnifying glass of hextra power is eclipsed

The surveying party sent out from Portland by the Plank Road Company have reached Hillsboro

THE REPUBLICAN STATE CONVENTION

This body will assemble to day at the Court House in this city at eleven o'clock The business before it will be to nominate a candidate for Congress three electors for President and Vice President of the United States and to appoint a State Central Committee for the ensuing two years Candidates for the office of Prosecuting Attorney in the several judicial districts of the state will also be put in nomination by the delegates from the respective districts Following is a list of delegates from the several counties, so far as we have been able to learn

BENTON COUNTY

Seven Delegates B Simpson B W Johnson W W Johnson F A Chenoweth J M Witham Sol Long S N Lilly Dr J Boswell John Kelsay J Falgar Jas Chambers

OREGON

Wheat at Salem is 90 cents a bushel

Gov Grover has pardoned two Indians out of the Penitentiary

Lumber in Washington county is very scarce Farmers are busy plowing

A parcel of bedding and a set of harness were stolen a day or two ago from a man's wagon on Gale's creek in Washington county The Sheriff is after him

From the *Statesman* It has now been ten days since young Lonah Yocum was drowned, and all efforts to find his body have been in vain Notices have been posted at every wood yard and landing between this place and Oregon City the result of which has been to keep up a continued watch

The Corvallis *Gazette* of the 10th inst., is becoming serious about the small pox, and says rumors are both various and conflicting as regards its presence in Albany One lady and her children have already left the place and according to that paper are temporarily residing in Corvallis

Two of the convicts died at the Penitentiary last week—a man named Sheppard and an Indian both from Union county and convicted of the same crime that of horse stealing Sheppard was sent up for four years, and at the time of his death had served but about six months The Indian was sentenced for three years and had served but one. They died of consumption

A short time since the *Herald* and *State Rights Democrat* forced the OREGONIAN out of the corner for mutilating a little dispatch on the Grant office holder question We are now receiving daily proof of the correctness of that dispatch At a State Convention of Republicans recently held in South Carolina seven white men and seven negroes were chosen as Grant delegates to Philadelphia and all of them are Grant office holders — *Salem Mercury*

The assertion that these delegates are 'Grant office-holders" is entirely without foundation The New York *Herald of Feb* 21st contained full proceedings of the Convention which showed that the delegates were State not Federal, office holders There is reason to believe that the *Mercury* was well aware when uttering the above paragraph that its statements were untrue We had already shown it to be without foundation

English and American Railways

The Rev Thomas K Beecher in one of his letters from England, says The railways here are not better than our own Either the English roads have deteriorated or else our own have appreciated I assume that the fastest train on the direct line between Liverpool and London may be taken as a fair sample and compared with similar trains on the Erie Railway at home—with which I am most familiar From Liverpool to London—two hundred and ten miles—through first class fare is thirty five shillings—say nine dollars On the Erie from New York to Elmira in a drawing room coach is eight dollars—a local rate We ride in by far the more elegant coaches at home and at perceptibly cheaper rates than here We ride as fast too on the Erie as here—about thirty five miles in either case In smoothness there is no comparison Motion on Erie is like rolling on oil but here we rattle in our seats like tin pails in a wheel barrow Here one wheel falling necessarities disaster there we can spin off from one to six and if judiciously selected the coach is still mobile and not a wreck Here it is difficult to talk and impossible to write there I do both intelligibly

I am proudly surprised after an absence of eighteen years, to find an English railway no long superior to our own in any particular that affects a traveler—no not even in the matter of dust and ashes

The State's Material Interests

To the Editor of the Oregonian

Sir Now when political conventions are about to assemble in Oregon to nominate candidates for offices we would admonish the Republicans who are always the conservators of the material interests of the country not to let individual interests so far engross their attention as to neglect quite as important matters as the selection of a particular man to date for this or that particular office For the Republican party builds the hope of filling the party that has fostered the growth of railroads in Oregon and aids creating it our State has first to pay to this have a great commerce for its railroads and rapid growth We believe that great advantages would flow as a favorable result by our State Convention instructing for the Portland, Dalles and Salt Lake Railroad It will be remembered that two years ago the Democratic majority of two gave private grudgingly induced as it was brought forward and demonstrated how the Republican party was one of fealty to the great interests of the State It will also be seen from a letter of Colonel W W Chapman, to be found in your columns of yesterday how great an influence such an expression would have at Washington With all the energy and zeal of our present delegation in Congress assisted by Colonel Chapman it is not improbable that no railroad grant for the Portland Dalles and Salt Lake Railroad will be made this session when that even all absorbing topic, the Presidential election, is near at hand Either party in Congress may rightfully or wrongfully hesitate to act for us at this session of Congress, and would willingly assist us this next winter So far as complimenting good action is concerned we have this to say that if ingenious earnest and patriotic labor merits ought, Colonel Chapman deserves to have this railroad grant made to the company of which he is President, and which is incorporated under and by the laws of this State In considering the railroad question we commend the Portland Dalles and Salt Lake Railroad to favorable mention

Portland, March 19, 1872

A Deserted Mine

The following graphic passage from an Eastern exchange relates the experience of a man who went alone to explore a deserted mine

"A ghastly place he found the level The timbers were hung with great festoons of a peculiar fungus resembling the moss of the live oak, but white as snow Upon these festoons rested globules of moisture which were transparent as distilled water and which sparkled like myriads of diamonds All these growths, however, were not of the form described Some resembling exaggerated mushrooms had stems a yard long that twisted about like rams' horns and were crowns of the size of a broad hat rim They mingled with the mossy formation, grew pendant from the roof of the drifts hung out from the lagging and sprouted up from the base of the side supports—in short so filled the old drifts that it was necessary to crush through them For an hour or more our adventurer wandered through the mazes of the level, more intricate than the labyrinths of Crete or at least than that of Wood stock, in which as the story goes fair Rosamond was imprisoned, but no store of precious ore could he find. At length in crowding his way through some fallen timbers in a tumbled down chamber, the whole came down behind him followed by a tremendous cave of earth, which blew out his candle and blocked the way behind him completely cutting off his retreat

He now started to find the mouth of the incline, and was congratulating himself that he had recovered from his former childish fears of goblins, when upon elevating his candle above his head to peer as far as possible into the narrow passage in advance there suddenly rose before him a most frightful apparition Uttering a helpless, smothered shriek, which seemed to be answered by still more despairing shrieks from every cavern in the mine—he dropped his candle Standing squarely before him in the middle of the passage he had seen a tall man of most venerable appearance His hair and beard were of snowy whiteness and the latter reached far below his waist his flowing robe was also white, but his face was black as ink In the involuntary act of covering his eyes to shut from his sight the fearful thing his candle was dropped and it was some moments before he could gain courage to remove his hands and again look before him But when he did so he was more frightened than before at what he saw The apparition was still there, but ten times more terrible than before. It appeared a living glowing flame except the face which was if possible blacker than before More dead than alive he stooped and groped about till he found his candle; then with trembling hands he lighted it, never once looking toward the awful object till his light was fairly burning, when, with a forced resolution which he felt to be little short of impudent he boldly faced about and held up his candle His ghost was gone but in its place stood a timber which had pitched from above, and which was completely clothed in the white fungus he had seen so much of in other parts of the mine He examined it minutely and was astonished that it should have given him such a fright but there it stood alone and in a place where he did not look for a timber in any garb By shading his candle he soon discovered that the fiery appearance it had worn in the dark was owing to a phosphorescent light given out by the rotting fungus.

A Leaf of Political History

Col Forney publishes in the Washington *Chronicle* a remarkable account of the manner in which Gen Grant was first nominated for President He says that Judge Carter of the District of Columbia and Senator Thayer of Nebraska suggested to him in November 1867 to write an exhaustive article favoring such nomination Forney goes on to say

I answered that Gen Grant was not a candidate for President, and did not desire to be, and if I printed anything without authority there was little doubt that some superservicable politician would call upon him and ask him if he had been made a candidate with his sanction He will, of course, reply that he never saw the article till in print so all our schemes to make him President will gang agley Then Rawlins took the article to Gen Grant and stayed quite a long time When he returned, he said 'Gen Grant is quite pleased with this your statement of his political record and surprised that he proves to be so good a Republican Upon this hint I printed it When Rawlins came back from Gen Grant with the editorial he told us with great emphasis 'Gen Grant does not want to be President He thinks the Republican party may need him and he believes as their candidate he can be elected and re elected! But said Rawlins what is to become of him after his second Presidential term? What indeed? During his present administration he is receiving from $17 000 to $20 000 a year as General of the armies of the Republic—a life salary To go out the Presidency at $2 000 a year for eight years is perhaps to gain more fame but what is to become of him at the end of his Presidency He is not a politician he does not aspire to the place Eight years from the 4th of March, 1869 he will be about 56 years old Of course he must spend the salary as President England with her Wellingtons her Nelsons and her other heroes on land and sea has never hesitated to enrich and ennoble them through all their posterity Such a plan is in accordance with the character of the English Government but in our country the man who fights for and saves the Republic would be a fool if he depended upon political offices

The demand for fire proof building material has stimulated the manufacturers of artificial stone at the West to such a degree that it is estimated that not less that fifty different compositions have been put upon the market since the Chicago fire, each purporting to be indestructible

The One Term Principle

From the Stockton Independent

Much of the opposition to the re election of Grant is the silent comment from those who are the avowed opponents of the re election of any person to that office This question has been repeatedly before the people and was the cause of considerable discussion in the convention that framed the Constitution Mr Randolph a member of the Convention from Virginia advocated a plan for the election of the Chief Magistrate by Congress for a single term of seven years After much discussion the present plan of election by a Board of Electors was adopted the term made one of four years and the restrictions to a single term were removed This plan has worked to the satisfaction of the people and of the twenty four who have been elected to the office of President not one to the letter of the first section of the Constitution has been elected after the expiration of their first term and the first President Washington would most probably have been elected for a third term had he not peremptorily declined the honor This shows conclusively that the American people do not desire to return to office those who hold for their duties satisfactorily It is doubtful whether an amendment to the Constitution of the United States to prohibit the re election of a President would to day receive the approval of the people A United States Senator or Representative in Congress is considered far better fitted for these positions after having served one term, and the people will generally believe the same to be true with the President If General Grant should be defeated only on account of the fact that he has already served one term the advocates of this one term principle are more numerous now than at any previous period since the organization of our Government

A DARWIN COUNTY —The *Democrat* published at Medina Ohio gives returns from twenty three cheese factories operated the past season in that county showing that these establishments received milk from 8 500 cows and made 3 223 101 pounds of cheese There were estimated to be 600 cows in private dairies making 200,000 pounds of cheese so that the aggregate product of the county was 3 423 101 pounds, being an increase of 686,795 pounds over the product of 1870 The value of the cows is estimated at $35 each—$318 500 that of the cheese at eight and a quarter cents per pound $300 000, and that of the factories $60 000

In the Island of Java the deficiency in the coffee crop will this year be 23 000 tons the Brazil crop will fall short some 70 000 tons, the Ceylon will fall short nearly 10 000 tons It is thus estimated that the coffee crop of the world will fall short of last year fully 100,000 tons

A countryman in Savannah observed a gang of darkies laboring on the streets each wearing a ball and chain He asked one why that ball was chained to his leg 'To keep people from stealing it' said the darkey 'cept of thieves about here

For sale at all the Book and Drug Stores in town

THE FOURTH LECTURE OF THE COURSE WILL be delivered by REV W R STEWART on

Wednesday Evening, March 27th, 1872,

at ½ o'clock

SUBJECT— Men Wanted

This notice frequently draws at us from the street corners and we a but the men most needed are not to be had by advertising We want men in every office and station of life Often the nation needs men who have power to comprehend the demands of the times and to prove their selves equal to the necessity We need men in every reform of a social, moral or political nature We need men in the Church in Society in the State and National Legislatures and in all parts of the The great all prevailing cry of the present day is men Not dandies nor fiddlers but strifers but men of nerve brains endurance honesty and industry

For such there is plenty of room in every community and the market has never yet been crowded The subject is an ample one and MR. STEWART will treat it in a thorough and attractive manner He is a fluent and agreeable speaker possessing rich treasures of thought and language united with a full powerful voice and a musical and pleasing elocution m20 2td

The Daily Oregonian.

WEDNESDAY MORNING MARCH 20 1872

CITY.

REMOVED

The Office of THE DAILY AND WEEKLY OREGONIAN is removed to the S E corner of Stark and Front streets

PASSENGERS FOR OREGON —The steamship Oregonian sailed from San Francisco yesterday for this port with the following list of passengers

E Goldsmith, Hon J S Smith and wife S Redstone, Jos Teal J M King A B Grossman L Hirsch, Mrs H Singer Mrs Mansfield and child Mrs J W Case and two children B C Pennington and family, J Sanders, N Brown L Kline, W E Ladlow, A Weidman J H Taylor J J Bliven L L Wiley, — Grafice W F Kimball A W Gordon, J W Selby and wife G Gerst, wife child and servant, W W Weber S L Moss J Barrett W A Buchanan, G L DePrans H Rosenfeld Mrs M A Trotter, C H Meussdorffer, Wm Kapus J Lee, F Mamee G Shindler J Kraemer W Phenken, V Volmer, C Lawyer, A W Stokhin and child, J Ewart

A LEGAL JOKE —The *Bulletin* reporter tells the following, which might have happened in this city, but did not 'A couple of days ago one of our popular attorneys called upon a cotemporary and asked his opinion upon a certain point of law that had arisen The person of whom the question was asked, drew himself up and replied 'I generally get paid for telling what I know' The questioner drew a half dollar from his pocket, tossed it to the other, and said 'Tell me all you know, and give me the change' There is a difference between the parties now'

BURGLARY —Within the last two or three nights two or three daring burglaries have been committed though not much of value was stolen at any one place. Mr D Simon's house on the corner of Front and Salmon was one of the places visited, and the family was loser in the shape of clothing and other articles The residence of Mr W N Wallace was entered the same night, and in this case the burglar carried off Mr Wallace's pantaloons, the pockets of which contained a small sum of coin and some valuable papers

ALL IN THE DOWNS.—A day or two ago Mr [illegible]'s dray horse exemplified how near a dumb horse may come to making a grand catastrophe for himself, his driver and dray, and yet escape unscathed He was in the act of cutting flinky antics, when he stumbled and fell himself, driver and dray over a bank [illegible] feet high Several men untangled the horse at the bottom and found the horse all right, the driver ditto and the dray ditto Moral as well as men—Don't be too frisky

POLICE MATTERS —There were eight cases in the Police Court yesterday morning, in which "drunk and disorderly" were what's the matter The fines were "five dollars or three days in jail in most of the cases, "ten dollars or five days in jail" in two cases, and in the remaining case it was "twenty dollars or ten days in jail" The Chief of Police will have bills for board of prisoners in most of the cases

METROPOLITAN ALSO —The *Bulletin* Colonist is unable to know how it was in the case of the Metropolitan policeman who testified that the difference between him" It's easy enough to tell who is a person who is a citizen of the city, and it is to say one who is at home in all the saloons This Metropolitan policeman is probably a Cosmopolitan who might be at home on any part of the street

TEMPERANCE LECTURE —The lecture by C H Wood, the first-born boy in Oregon hereto fore, to take place this evening at Non [illegible] has been postponed till Friday even [illegible] His subject will be "The Temperance Reform and political action"

RUNAWAY FROM A BUGGY.—Mr A J Watson had the misfortune yesterday to be thrown with violence out of a buggy in which he was riding He was much bruised and it was feared some of his ribs were broken,

ARBOR DAY.—We have observed that for several days the business of beautifying the city by planting shade trees, has been going on briskly in all the book portions of the city

LOCAL MISCELLANIES

[illegible] is what early shrubs are doing

[illegible] leaves are reported looking well

[illegible] symptoms begin to appear! Croquet, [illegible]

There is a ripple of scare up country about [illegible]

[illegible] Trail is coming to the front, per steamer [illegible]

[illegible] entertainment at the Unitarian chapel [illegible]

"Those men" have commenced to trouble the [illegible] folks.

"Balmy" was the average weather re[illegible]

[illegible] sailing are the of order things in [illegible] of this city.

[illegible] vol has commenced its thirteenth vol [illegible] of six years

[illegible] that moreover Waldron is about to take [illegible] on a traveling tour

[illegible] are now arriving by way of the Columbia river route

[illegible] yesterday brought down from Ore[illegible] rather load of cattle and sheep

[illegible] of Judge Denny in the firemen's [illegible] will be considered this morning.

[illegible] ersey is going to the trouble of hold[illegible]tion in this county, April 6th

[illegible] sprinkler is what will be wanted in a [illegible] here, the way the weather is conducting [illegible]

[illegible] is waiting for a letter from that [illegible] detective That Wisconsin chap is a [illegible]

[illegible] has reached here that that Wisconsin [illegible] has touched home in safety Shouldn't [illegible]

[illegible] to postponement the vacation of the [illegible] Street will be considered by the Council [illegible]

The warm sunshine brings out the vagrants [illegible] bloats much as it does the snakes from their holes

The freights received at the Oregon and Railroad depot, last evening there were three cars of stock three cars of flour, one car of wheat, and 2 303 pounds of eggs

AMUSEMENTS.

Col Jas L Meek is in the city and will tell what he knows about old [illegible]

THE THEATER.—To-night the great drama of Strike, with all the novel and stage [illegible] be produced. It will be presented [illegible] time

ENTERTAINMENT.—The musical and [illegible] Minstrel at the Unitarian Chapel [illegible] will be among the best of the season [illegible] will be varied of the most inter[illegible] order

CARD FROM CAPTAIN PEASE.

DR. ABORN—DEAR SIR I with pleasure an[illegible] to the afflicted that my son appears to be entirely cured of a very bad catarrh in the head which he had for about two years

Yours, truly, GEO A PEASE

PORTLAND, March 18, 1872

MRS DUNIWAY ON POLITICS

The Court House was very nearly filled last evening with people curious to know what Mrs Duniway had to say about the politics of the day There were not more than a few of the delegates to the State Convention present notwithstanding it had been understood that her main purpose was to tell them how to elect a Republican to Congress The delegates perhaps thought they knew butter how to do that than did Mrs Duniway There were a considerable number of ladies in the audience and a few Democrats who went to enjoy the luxury of hearing their traditional enemies scolded by a woman and poor chance to pick up stray bits of information which might be used to advantage in the coming campaign They had been led to expect that Mrs Duniway would force some of the candidates to declare themselves on her pet propositions

Mrs Duniway after keeping the audience waiting about half an hour finally appeared, walked up the aisle took off her hat and went at the work of the evening She opened on

THE NEWSPAPERS

charging that they wished to ignore her as was evidenced by the fact that the OREGONIAN alone had mentioned her appointment to lecture and that that paper had only mentioned it in a brief local item The papers were all scolded pretty sharply and one or two of them rather roundly She acknowledged before she got through that though her temper was usually serene, she had come to this meeting with a purpose to scold Having disposed of the newspapers to her satisfaction, she proceeded to define the

POLITICS OF THE DAY

She summed up politics to consist of three things—first, to make money second to get the offices third to keep the offices And then she went for the scalps of those who delve in political workshops making politics their trade Her scolding under this head was severe and very just provided only that politicians are really as wicked as she described them If there were any present they could scarcely have felt flattered at their pictures as drawn by Mrs. Duniway After doing up politics and politicians in general, she defined what she understood to be the code of

REPUBLICAN PRINCIPLES

1st To elect Grant, "The Silent man of Destiny," 2 To suppress the Ku Klux Klan, and 3d To pay the national debt. She then considered these propositions in inverse order The national debt, she said was a debt of honor that the nation must pay to save the national honor and if the Republican party should keep the helm, it would be paid in 30 years provided the ratio of reduction during Grant's administration should be kept up But she could tell the people how to pay it much sooner Admit the women to the privilege of the ballot, and the women of America would see that the debt be paid almost before anybody should suspect what was the matter. The suppression of the Ku Klux she pronounced a duty the Republicans owed both themselves and the Republic She did not as everybody had anticipated, object to the re election of Grant

DEMOCRATIC PRINCIPLES

She confessed her inability to explain definitely what they are There is so much of new departure, passivism and the advocacy of various and conflicting policies that she could not get enough of the party together to discover what its principles are, or whether it has got any, save and except its immense greediness to get hold of the public crib Then she made a raid upon the county officials, and gave rambling raps to all sorts of people who 'put up' political jobs and run party conventions She explained why she had made recently in the *New Northwest* an exposure of

PRESIDENT GRANT'S SOCIAL HABITS

in early life Briady stated it was because the OREGONIAN had some months ago uttered an unjustifiable insinuation against the social purity of Mrs Elizabeth Cady Stanton She had then hot tided her wrath and kept it till she had an opportunity to get even by throwing a "bomb into the camp She admitted that since those early days Grant had lived a different sort of life had reformed and that altogether he seemed now to be a proper enough sort of man Then she essayed to tell the Republican delegates

WHAT SORT OF MAN

They could elect and what sort they could not No politician by trade could be elected The successful man must be a man of the people He must be a woman suffragist and in addition to that his wife must be a woman suffragist The women of Oregon would not consent to send any more man to Washington who had wives, like Mrs. Senator Corbett, to tell the Congress that women did not want to vote and to have their rights If a woman suffragist were nominated by the convention to morrow, she would

STUMP THE STATE

And advocate his election, if an anti woman suffragist were nominated, she would stump the State against him and hold "protracted meetings" all over the country In conclusion after speaking over an hour, she said she wanted to hear from the candidates on this question Mr Sullivan was called for but declined to make a speech, on account of the lateness of the hour, at which point our reporter left the hall, and what transpired thereafter, must be left for the *New Northwest* to tell

PERSONAL.

We acknowledge calls from Mr Tyson, editor of the Dallas *Republican* and Coll Vanclave of the Albany *Register*

In the passenger list per steamer *Oregonian* we notice the names of DePrans, Meussdorffer, Shanahan Shindler Buchanan and other Portland people

CROWDED—Messrs Jos Kohn & Co successors to Kohn & Fishel have filled every nook and corner in their extensive Clothing establishment with Spring Goods On the second floor they have an elegant stock of goods for the jobbing trade which they are offering at prices to suit every one. Country Dealers would do well to call and examine the stock To their city customers and in fact to the public in general whether resident or otherwise they offer such bargains that no one need feel disposed to leave without purchasing Nothing more need be said Try the new firm You'll never regret so doing

A GOOD IDEA —Messrs Hurgren & Shindler desirous of accommodating their customers in this city have had manufactured expressly for their use a splendid Furniture Wagon with which they will convey to purchasers any article in their line Free of Charge They are making room for New Goods and selling their present stock at Low Prices The public will find this just the time to make purchases They have New Specialties in Furniture Mattresses and other goods in their line Remember anything they sell will be delivered free to any part of the city

THE UMATILLA HOUSE at The Dalles is now completed and furnished in every respect unsurpassed The office is the most cheerful and pleasant in the State and the dining hall is unequaled The rooms are all newly furnished The house has twelve suites of rooms with stoves in them for families The new house stands much higher than the old one. The ceilings are four feet higher, which adds greatly to the cheerfulness of the rooms The table is kept in a style to correspond fully with the appointments.

A REMARKABLE CURE OF PALSY

MR BURDEN A STOCK RAISER OF WILLOW CREEK WASCO COUNTY OREGON LOST THE USE OF HIS LEFT ARM BY PALSY WAS CURED IN SEN MINUTES BY DR ABORN OOR WEE THIRD AND MORRISON STREETS PORTLAND

To the Afflicted—I wish to state that I lost the use of my left arm from my shoulder to the end of my fingers by a stroke of palsy I could not raise my hand or arm from my side and was fearful that there was no cure for me My friends at the Dalles advised me to visit Portland and place myself under the care of Dr Aborn. I arrived in Portland last evening by the Dalles boat and immediately called at Dr Aborn's office and made my case known The Doctor commenced treatment at once and in ten minutes time to my great surprise and joy he performed a complete cure so that I now have the use of my arm hand and fingers and can raise my arm up over my head with as much ease as I can raise my right arm. This certainly is a very remarkable cure and in my estimation speaks volumes to the skill of Dr Aborn I am stopping at the American Exchange Hotel and will leave on the boat to-morrow for home I am a stock raiser and reside at Willow creek Wasco county Oregon eighty miles south of the Dalles,

WM BURDEN

PICKINGS

There are now 9 300 000 bushels of grain in store and afloat at Chicago

Alabama has six cotton factories which work up 20 000 bales of cotton annually

Philadelphia asks her Common Council for $300 000 to build her new engine houses with

A Western serial story contains this touching sentence His heart still palloped for her

A young lady of Philadelphia went out sleighing wearing a fashionable bonnet and froze her forehead Result insanity

A Des Moines damsel having offended a young man at a leap year ball he threatened to send his big sister to demand an apology

The German students drawn off by the war are flocking back to the universities which are nearly all over crowded this winter

A man died suddenly from intemperance and a Western jury found that 'deceased came to his death by drinking between drinks

A young lady of Indianapolis was very sorry that her wedding which was to take place at the same hour would prevent her attending her sister a funeral

A small but energetic Western paper announced its own demise in its last issue accompanied by all the solemnities of turned rules coffins and grave stones

The custom of loading a bride with costly presents and clothes is condemned by some people who think it would be a wiser arrangement to give such things to the girls who are without a lover and have no pleasant prospects ahead

It is said women would walk much better if they would pace up and down their room for an hour every day with a heavy book poised on their head which it would seem gives the most crooked person an erect and graceful figure

THE NEW GOLCONDA —The London journals are still busy with their correspondents in the Zulu land of diamonds who, however, tell different stories when in different moods One, for instance says

"Colesburg Kopje may safely lay claim to be the richest spot on the earth's surface The daily question there is not 'have you found, but 'how many have you found?' A returned sojourner on the Vaal heard by last mail from a friend to the effect that he—the writer—had just seen a man who had a bank check for £3 000 and a bank draft on England for £50 000—all the produce of digging Nevertheless we hear of others who, even on this famous hillock have not done more than pay expenses—although they daily and hourly expect to make their pile A correspondent says 'one of my parties sold their claim last week for £1 000

Another writes from the place about the same time

"This diamond digging is most horrid I can't tolerate the sorting it is slow beyond endurance I have sunk some wells imported several batches of colored laborers besides doing other work The digging I leave entirely to my Kaffirs The Kaffirs are the finest race of blacks under the sun, and I don't believe they would rob me of threepence Water will be plentiful, so many are sinking many are coming and lots are leaving

CURIOUS HISTORICAL CEREMONY.—A remarkable historical ceremony was performed at the Emperor of Germany's recent battues at Gohrde Ever since the elevation of that place to a royal hunting seat it has been the custom to conclude the banquet in the palace by an 'after chase which the Hohenzollerns appear unwilling to discontinue as its present masters After the removal of the plates and dishes, some plain deal tables are brought into the banquetting hall, with tin spoons of various sizes apportioned to the company, according to their respective dignity Around these tables the company take their seats The chief amusement of the sport consists in beating and rubbing the spoons on the table so as to produce all variety of noises imaginable by the contact of wood and tin, the human voice being allowed a proper share in the performance To add to the uproar the hunting band play on their French horns, to the accompaniment of loud cracking of which were retained for the purpose The latter two noises lend the performance a sportsmanlike character The august personages assembled this autumn at Gohrde are said to have proved themselves great proficients in the use of their spoons, and if the entertainment was not as melodious as one of Wagner's operas Prussian papers inform us that under the guidance of his majesty, it was on all events, exceedingly mirthful

B L Farjeon, author of 'Joshua Marvel' and 'Blade o Grass is pronounced by Mr Justin McCarthy to be one of the most promising of the young novelists of the day Mr McCarthy divides the English novelists into four classes First class Geo Eliot she alone and nobody else Second class Chas Reade Anthony Trollope, Wilkie Collins Miss Braddon Mrs Craik, Mrs Oliphant, Mrs Henry Wood and one or two others Third Rising novelists, not widely known but who have thus far been successful Among these is Mr Farjeon The fourth class is composed of an immense rank who are not known and of whom nothing can be expected—ladies of fashion whose husbands pay for the printing of books etc

Atmospheric Poison

The spring sun calls up something besides the flowers and grasses It evolves from the damp earth turbid rivers, stagnant pools and black morasses the gaseous provocatives of disease From the offal and garbage of malignancies too it exhales an effluvia destructive of health and vigor Periodic fevers of various types are now raging with unusual virulence in various parts of the country and there are complaints from all quarters of a sickly and unhealthy spring The answer is simple and to the point Strengthen the body Weakness predisposes the system to disease Common sense at once advises the use of the great genial of tonics Hostetter's Stomach Bitters Be assured that the germs of chills and endemic fevers will never affect the physique that has been fortified and regulated with this glorious vegetable restorative. A malarious atmosphere aggravates dyspepsia and all diseases of a bilious type and the sudden thermometrical changes common at this season are severe trials even to strong constitutions There is but one way of combatting these deleterious agencies and that is by invigorating the body and imparting a healthy activity to all its functions The only specific acquired for this purpose is Hostetter's Bitters Of all vegetable tonics and alteratives it is the purest and the best Its medicinal ingredients include all the juices and extracts of the most approved tonic and bilious and antiseptic products of the Botanic Kingdom and they are combined with a stimulant far superior in quality to the alcohol used in preparing the tinctures and extracts of the regular pharmacopoeia

An artillerist's wife asked him the other day if there were three balls in a tier of grape shot. "Yes," responded the sentimental soldier, "and perhaps a great many tears in every ball."

A Welsh farmer, residing near Utica, while being run away with by a pair of frightened horses, shouted: "I leave my wife $10,000; no time to make a will." He is still alive, but badly bruised.

One Hundred and Twenty Millions.

THE SIR FRANCIS DRAKE ESTATE—FORTUNE FOR SOMEBODY—THE TENNESSEE DRAKES.

The Bowling Green *Democrat* published the following article a few months ago. An interesting piece of intelligence has been upon the air in Bowling Green for some weeks, but we have hesitated to give it publicity through the columns of the *Democrat* lest it might prove too good to be true. We have taken some pains to get at the bottom of the glad news, and we find that there is really a sound foundation. It's all about an English fortune coming to heirs in the United States, some of whom are our neighbors and dear friends. This is the story.

"About eighty-five years ago Sir Francis Drake, of England, left a large estate to his American heirs. The property has remained since then unclaimed, the heirs themselves being definitely unknown. Some fifteen years ago information of the unclaimed fortune came to the family of Drakes in Kentucky, Middle Tennessee and Virginia, but no clear steps were taken to establish their claim, and so the matter quietly rested. Some ten months ago the subject gained new life, an investigation was put on foot, and the lines of descent were carefully traced to the great ancestor. The investigation has led, with apparent certainty, to the establishment of the fact that the Drakes of Middle Tennessee and their near kin are the true heirs, and that there are unclaimed in the Bank of England $120,000,000 to be divided among them.

"Steps are being taken to bring this whole matter to a definite result, and most gratifying information on the subject has been conveyed to the claimants within the past few weeks. These facts we gather from one of the heirs in this; for we rejoice to state if the chain of evidence, now apparently complete, shall be unbroken, we shall have several heirs to the English fortune in the very midst of us. Mrs. H. D. Glenn, who resided in the vicinity of Oakland Station, in this county, and her three sons, H. D. Glenn, T. J. Glenn and H. O. Glenn, of this city, are direct and near descendants of Sir Francis Drake. This fact is regarded as indisputable. Mrs. Glenn is one of the oldest and closest representatives of the original family in this county, and several other members of the family reside in Todd county in this State. Certainly this is very gratifying intelligence. There is not more estimable family in this county than the Glenns. The gentlemen of the name who are engaged in business here are upright, intelligent, industrious citizens, and are universally esteemed. They will become very rich in the division of the English estate, their proportion ranging from $900,000 to $4,000 each. Sincerely do we hope that all they have such reasonable grounds to hope for will be realized, and that we shall soon see them enjoying the prosperity which is now foretokened for them."

We hear that the Tennessee Drakes have employed Gen. W. B. Bate of this city, and J. P. Benjamin of London, to prosecute their claim as heirs of the great navigator.

FINANCE AND COMMERCE.

TUESDAY EVENING, March 19, 1872.

Gold in New York, 111¼.

Portland Legal Tender quotations, 90¾@ buying and 91¾@ selling.

According to the estimates at the Treasury Department, $25,000,000 in gold will be received from customs collected during the fiscal year ending June 30th, 1872. A surplus of $100,000,000 of this amount will be in the Treasury after discharging the gold liabilities of the Government, such as paying the interest on the National Debt, etc. Secretary Boutwell has recently made a very interesting estimate of the total indebtedness of the nations of the world. The aggregate he places at $23,000,000,000.

The Russian Minister at St. Petersburg, in writing to the Department at Washington says that the trade of Russia with the United States is increasing every month. During the past Summer 25,000,000 lbs of Cotton, valued at 8,000,000 rubles, had been imported from the United States, to say nothing of Petroleum and other articles.

The ship *Oriflamme* left San Francisco this morning, and will be due here Friday night or Saturday morning.

The bark *Almatita* will commence receiving cargo to-morrow.

The bark *Coldstream* will probably have cargo in by the last of this week, and sail for Liverpool early next week.

The bark *Sparkling Dew*—301 days out from Newport, Wales, with railroad iron, crossed the Bar yesterday. She will be brought up immediately.

The schooner *Mila Bond*, from Tillamook, was passed by the *Dixie Thompson* at Cathlamet, bound up.

The steamship *Ajax*, for San Francisco, had not crossed the Bar when the *Dixie* left this morning.

There is nothing that carries a State so far ahead in its onward path in prosperity than internal improvements when its positive and general advantages are such as renders it susceptible to such improvements. Here everything tends to give us a position enjoyed by no other State in the Union, and it appears singular to many visiting it that they have not been taken advantage of at an earlier day. Some of these are still waiting capital to develop them. But one which challenges the attention of all who gives it a moments thought, and that is the developing of the Iron mines at Oswego. We have on several occasions called attention to this being a very favorable time for resuming work on them. When we take into consideration the vast wealth realized not only in this but also in the United States by those owning the mines and those engaged in the manufacture of articles from Iron produced, it appears singular that our capitalists allow the Iron mines at Oswego to remain idle. To show how extensive is the manufacture of Iron is carried on East and the number of men employed, directly, and the value of the Iron produced we give the following interesting statistics from the Secretary of the Bar Iron Manufacturers Association:

The production of pig iron in the United States for the year 1871 is estimated at 1,850,000 tons, as follows:

Anthracite Pig Iron ..... tons of 2 000 lbs.	863,000
Raw Coal and Coke Pig Iron	600,000
Charcoal Pig Iron	387,000
Total Pig Iron	1,850,000

The number of operators employed in the production of raw and manufactured iron is given as follows:

Number engaged in producing Iron	140,000
Engaged in manufacturing articles of Iron	800,000
	940,000

This is without taking into consideration the large number engaged in transporting ores and finished iron. The value of this labor, if put at only $2 per day—which would certainly be put far below the average, where such an amount of skilled labor is required—would be $1,880,000 per day, or nearly $600,000,000 for the 300 days of the working year.

The value of the product is placed at $900,000,000, thus:

Product of Pig Iron	$75,000,000
Product of rolling mills and forges	138,000,000
Value of articles manufactured of Iron	687,000,000
Total value of Iron for the year	$900,000,000

The removal of work on the mines at Oswego would not only give employment to a large number of men but it would also cause the erection of more furnaces and also of works and manufactories for working the Pig Iron into the different articles of commerce. And aside from that it will tend to enhance the value of property not only in the immediate vicinity of Oswego, but also in Portland.

Produce Market.

WHEAT—Reports from the interior are to the effect that farmers are all busily engaged in preparing the soil for seeding. Owing to a combination of circumstances, we are informed by several gentlemen in the city, that not as much will be seeded to Wheat as was contemplated. Buyers continue to bid, not offering to exceed $1 50 per cental. Shippers are not in the market. The *Sparkling Dew's* cargo is already secured and she will have quick despatch.

FLOUR—Market rules firm, with the call showing a market increase over yesterday. The call is confined to points down the river and from local trade. We continue to quote extra in jobbing lots at $6 ₹ bbl for standard brands, $5 50@6 75 for choice country, $5@5 50 for outside and superfine.

OATS—The market rules steady with no two cents coming forward, in ruling firm in jobbing lots at 2[illegible] ₹ lb for California, and 2[illegible] for Oregon.

POTATOES—Prices continue to improve for both choice California, Oregon and Sound. We quote California at 1[illegible] ₹ lb; Oregon and Sound, 1¾@2 ₹ lb.

ONIONS—Market quotable at 3c ₹ lb in jobbing lots.

HAY—Timothy continues to rule weak at $24 ₹ ton; other descriptions, $12@16.

FEED—Market, under a steady consumptive call, rules steady at $22 50 ₹ ton for Bran, and $32 50@35 ₹ ton for Middlings, etc.

PLANSEED—Owing to the low price of Wheat and other circumstances many farmers will seed Flax. It is now claimed that many thousand acres will be put in. This is a good move as the market fleat is high and likely to remain up, as that if the Linseed Oil Factories cannot take all, the surplus can be shipped. The Pioneer Oil Works continue to offer 3@3½¢ ₹ lb for this year's crop.

EGGS—Market rules steady at 22½ ₹ dozen.

POULTRY—Market virtually bare, and in consequence improved prices are ruling.

Retail Family Market.

RAILROAD LANDS.

OFFICE OF LAND DEPARTMENT,
Oregon and California R. R. Co. and European and Oregon Land Co.,
PORTLAND, OREGON, August 1, 1871.

THE COMPANY IS NOW PREPARED TO EXTEND the pre-emption privilege of purchasing Railroad Lands in advance of the same being placed in market to all part ies desirous of securing them on the following terms:

The applicant filing in this office a claim in the form prescribed to-wit:

Pre-emption, date, No. ——.

To the Land Agent of the European and Oregon Land Company:

SIR: You are hereby notified that I have settled upon and improved (description of land) in the county of —— State of Oregon, containing —— acres, and that I claim a pre-emption right to purchase said lands at the Company's valuation in accordance with the following resolution of the Directors of said Company, adopted on the twenty-sixth day of May, A. D. 1871, to the terms of which I hereby fully assent:

"Resolved, That the parties settling upon and improving any of the lands of the European and Oregon Land Company, before the same are opened for market, shall be entitled to the pre-emption privilege of purchase on the same terms as the Company would sell the land for without improvement, and shall be subject to the same conditions of payment, as all other lands belonging to the Company, when brought into market; provided, such settlers shall file in the Land Offices of said Company, written application, giving notice of such settlement, and shall accept the privilege upon the condition that when the price of the land shall be fixed, notice thereof shall be sent by the Company's Land Agent, through the Postoffice, or otherwise, as may be convenient, to the residence of the party claiming the pre-emption privilege, and if the land is not purchased by the said party within sixty days from the date of such notice, the Company will be at liberty to sell the land to any other person."

(Name of applicant.)

(Postoffice address.)

When the application is received, a certificate, signed by the Agent, obligating the Company to the terms, will be sent to the claimant in the following form:

PRE-EMPTION CERTIFICATE, NO. ——.

This is to certify that —— of —— county, State of Oregon, has this day filed in this office a pre-emption claim to (description of premises), and is hereby entitled to the first privilege of purchasing said land at the Company's valuation, (which is to be made without reference to improvements when the same shall be placed in market, in accordance with a resolution of the Board of Directors of said Company, adopted May 26, A. D. 1871.

When the price of the above described land is fixed, notice thereof will be sent to the party to whom this Certificate is issued, and if the land is not purchased by the said party as the holder hereof within sixty days from the date of said notice, the Company will be at liberty to sell the land to any other person.

(Signed)

Land Agent of the E. & O. Land Co.

The lands will be appraised by a competent, disinterested party, under oath, at their actual present value—no fancy or prospective price on the basis of similar lands in the vicinity, and when appraisement is made they will be sold in quantity not exceeding one hundred and sixty acres to one person, payable in five equal annual instalments, with interest from date of contract, at ten per cent per annum, principal and interest payable in United States Legal Tender Notes. Warranty deeds given after United States Patent issues, upon payment in full.

Blank forms of application furnished upon request.

B. F. DOWELL,
Attorney at Law,
OF JACKSONVILLE, OREGON.

WILL SPEND THIS WINTER IN WASHINGton, D. C., as agent for procuring bounties, pensions, arrears of pay, prize money, pay for horses, steamboats and other property lost or destroyed while in the service of the United States, or in Oregon and Washington Territories in 1855-6, or California Indian ward, and Quartermaster's stores or subsistence supplies taken for the army; and for the prosecution of claims of all kinds against the United States. Ordnance and quartermasters' accounts adjusted, and certificates of non-indebtedness procured for discharged officers.

I will be pleased to correspond with those who are engaged, or desire to engage in obtaining such claims, and send also their claims against the United States. I will send them all necessary forms and instructions, and keep them advised of all laws and decisions relating to claims, and my fees in such claims will be but one-half the fees charged elsewhere.

I refer to members of Congress, officers of the Government, and others who have resided in Oregon or Washington during the last twenty years.

Address B. F. DOWELL,
Washington, D. C.
